PROFILE

IT Professional with previous experience focused on customer obsession, deep diving with attention to detail, and deadline management / continuous improvements. Seeking to enter the Software Development field, applying the skills and knowledge I have obtained to make an impact within client and server systems.

EDUCATION

University of Kansas, Overland Park, KS March 2020 to August 2020

Bootcamp course focused in Full-Stack development (JavaScript, jQuery, Ajax, Node.JS, Express, MongoDB, MySQL, React)

Centriq Training, Leawood, KS June 2016 to September 2016

Coding Bootcamp specialized in C#/.NET Framework. Fulltime course lasting 4 months, 40 hrs/per week.

PROFESSIONAL EXPERIENCE

HYPE Math, Remote January 2021 to May 2021

Application Developer Intern (Front-End Lead)

- Tasked with leading Front-End team to deploy user friendly and functional learning web application.
- Primarily programming in JavaScript and revised Bootstrap components.
- Responsible with setting team tasks, adjusting deadlines, and team communication through slack and zoom portals.

Amazon, Kansas City, Missouri August 2017 to June 2020

On Road Shift Assistant (Tier 3)

- Managed inbound dock for receiving, trailer inspection, and material handling. Handles dock clerk tasks and material organization, fulfilling safety regulations at all times.
- Assisted in managing 200 associates in daily objectives – included delivering daily feedback on performance, presenting data to leadership team on areas of improvement and successes.
- Led shift in quality standards that applied to over 2,000 employees. Constantly deep-dived data for what can be improved in teams, as well as walking senior leadership through processes and what can be run more efficiently.

United States Army, Kansas City, Missouri October 2008 to January 2013

Combat Engineer

- Took part in combat operations that required situational awareness as well as constant adjustments to achieve team success. Constant communication with other team members to fulfill mission objectives.
- Responsible for route clearance operations. Tasks include locating explosive device wires for the safety of the convoy and country civilians.
- Daily responsibilities in weapon and vehicle functionality as well as team building exercises and operation evaluation.
